

## Planning for Rahul-lal.github.io blog site

1. What is my site's primary purpose?
  - A. To hold my blog/video post mostly my reflections, eventually my portfolio of work
2. Who is my audience (is it kids, adults, academics)?
  - A. EDA staff & potential employers
3. How will I build my site to support their user experience?
  - A. I look at design of various site online, and take aspects (e.g. nav bar, headers, image format, etc) and consolidate it to a singular design
4. Wireframe - can I draw my site layout on paper? Draw it!
5. What other directories do I need (e.g images). Where do I put that directory?
  - A. Blogs
  - B. Images
  - C. JavaScript code for separate functions
6. Do I want the style to be applied to your blog entries also?
  - A. Absolutely
